

## MOSQUITO REPELLENT PATCH WITH CITRONELLA

### PRODUCT DESCRIPTION

The **mosquito repellent patch with citronella** is an adhesive application with microcapsules on its external side which, when scratched, release Citronella scent.

### INDICATIONS

The **mosquito repellent patch with citronella** is designed to repel insects, especially mosquitoes, in a natural, clean and effective way. The **mosquito repellent patch with citronella** is completely safe for children and for people with sensitive skin, as it contains no chemical repellents and its active ingredients do not come into contact with the skin.

### THE ACTIVE INGREDIENTS

The action of the **mosquito repellent patch with citronella** is based on the repellent power of Citronella oil. A natural insect repellent with recognised efficacy.

- **CITRONELLA [Cymbopogon nardus]** This plant of oriental origin releases a very particular smell which, even though agreeable for people, effectively repels mosquitoes and other insects, such as fleas.

### INSTRUCTIONS FOR USE

The **mosquito repellent patch with citronella** is secured to clothing by its adhesive. Once applied, scratch the external part to release the Citronella scent, which creates a hostile environment for mosquitoes.

It can be applied to any area of the body: arms, back, etc. but it is recommended to apply it on the arm near the wrist for ease of access. It can also be placed on clothing or nearby objects. After scratching the patch, move the arm several times so the Citronella scent envelopes the body completely and is more effective.

Each patch has a 50 cm radius of action and a 8-12 hour duration. For the best results, the patch should be scratched at regular intervals to continue to release the essence. The simultaneous application of 2 **mosquito repellent patches with citronella** improves results. In the case of children and the elderly, it is recommended to place the patch on the back [so it is not removed], the pram, pyjamas or headboard.

### PRESENTATION

- 1 blank foil sachet containing 24 patches, 1.5 cm per side.
- Sachet size: 13 cm long x 9 cm wide
