

ORAL FILM DRY MOUTH

For dry mouth and bad breath

PRODUCT DESCRIPTION

ORAL FILM DRY MOUTH with a combination of probiotic, propolis and herbal extract is a food supplement that stimulates saliva secretion and improves dry mouth (xerostomia) and for reduction of bad breath.

Unique formulation which allows the ingredients to be rapidly assimilated without water.

Useful and practical.

ACTIVE INGREDIENTS

LACTOBACILLUS: reduces the growth of dental pathogen and caries-associated salivary microbial counts. Removes the odour pathogens.

PROPOLIS: antioxidant, antibacterial and antiviral activity in oral cavity.

SAURURUS CHINENSIS EXTRACT: helps to relieve the symptoms of cold increasing salivation due to bitter taste.

DL-MALIC ACID: helps to prevent dry mouth by promoting saliva secretion with strong sourness and maintains strong taste of sourness for a longer period.

INSTRUCTIONS FOR USE

- Take out the food supplement product from the pouch and put it on your tongue.
- Wait a second while the product dissolves in the mouth.
- Swallow the dissolved ingredients.

Dosage

3-6 ODF per day.

WARNINGS
