

VENOPATCH

Relax for heavy legs patch

PRODUCT DESCRIPTION

VENOPATCH is a hydrogel patch aiming at cooling and soothing heavy legs caused by bad blood circulation, a lack of physical activity, or over exercise. The hydrogel technology provides a dual cooling and soothing action. These effects are determined by a matrix type of hydrogel: the evaporation of trapped water inside the three dimensional matrix polymers provides a constant cooling effect on the applied areas. The second action is derived from Bioflavonoids and Vitis Vinifera [Grape] Leaf Extract. The essential aroma oils [Citrus Aurantium Dulcis [Orange] Peel Oil, Eucalyptus Globulus Leaf Oil & Lavandula Angustifolia [Lavender] Oil] provide a relaxing effect.

INDICATIONS

Hydrogel Patch for: pain relief, swelling relaxation, improvement of the blood circulation of the legs.

1. For long flights.
2. For people who walk or stand for a long time.
3. For after sports.
4. For after wearing high-heeled shoes.

THE ACTIVE INGREDIENTS

- Vitis Vinifera [Grape] Leaf Extract: this ingredient contains polyphenols such as resveratrol and improves blood circulation and vein elasticity.
- Bioflavonoids: this ingredient extracted from citrus peel [bitter orange, grapefruit, sweat orange] provides an antioxidant effects that improves blood circulation.

INSTRUCTIONS FOR USE

1. Cut to open the pouch and take out the hydrogel patch.
2. Peel off the protective film.
3. Apply on the affected area.

Leave the patches for minimum 6 hours to get effect.

The patch can be used for maximum 8 hours. It is recommended to use overnight for continuous absorption of ingredients.

PRESENTATION

1 pouch with two patches.
