

## CBD ARTHRITIS GEL

### PRODUCT DESCRIPTION

**CBD ARTHRITIS GEL** is a topical formulation in hydroalcoholic gel which reduces the painful conditions of hot and swollen joints that occur in rheumatoid arthritis.

Cooling effect is caused by the alcohol/water mixture. When the gel is applied on the skin, the alcohol evaporates, causing a faster conductive cooling effect on the treated skin surface. Lowering the skin temperature reduces pain in the area treated.

### ACTIVE INGREDIENTS

**ALCOHOL / WATER MIXTURE** conductive cooling effect on the treated skin surface.

Other ingredients:

**CBD (Cannabidiol)** is extracted from hemp plant [Cannabis sativa] improves skin hydration.

**MENTHOL** and **CAMPHOR** support the physiological effect on the skin.
