

BITE GUARD II

PRODUCT DESCRIPTION

BITE GUARD anti-mosquito is a wide and complete skincare range of safe and effective products for protection against mosquitos and other insects.

The innovative active ingredient IR3535 protects the whole family, repelling mosquitos and other insects. The synergistic combination of Willow herb extract and Andiroba oil offers instant relief from pain, swelling and itching.

Dermatologically tested.

RANGE OF PRODUCTS

1. ANTI-MOSQUITO PROTECT LOTION 10%: repels mosquitos (including mosquito tiger), gnats and other insects. With the innovative active ingredient **IR3535® 10%**. With light texture, easily absorbed without leaving sticky sensation, odorless. Suitable even for **sensitive** and **atopic skin**.

Target Group: infants (0 months +), toddlers, children, adults, pregnant and breastfeeding women.

2. ANTI-MOSQUITO PROTECT SPRAY 20%: repels mosquitos (including mosquito tiger), gnats and other insects. With the innovative active ingredient **IR3535® 20%**. Odorless.

Target Group: toddlers, children, adults.

3. ANTI-MOSQUITO CREAM: Moisturizing cream enriched with **Citronella oil** that effectively repels mosquitos, gnats and other insects. The combination of **Panthenol, Allantoin, and Aloe** provides rich hydration, while the **Willow herb extract** and **Geraniol** sooth and protect the skin. **0%** Parabens.

Target Group: toddlers, children, adults.

4. AFTER BITE GEL: Soft gel for immediate **relief** of irritated skin after **insect bites** or contact with **jellyfish** and **stinging nettle**. Thanks to **Willow herb extract** and **Andiroba Oil**, it immediately relieves pain, swelling and itching. It also contains **Panthenol, Allantoin, Aloe** and **Menthol** with emollient, cooling and healing action. **0%** Parabens, Ammonia.

Target Group: toddlers, children, adults.
