

CBD PATCH

PRODUCT DESCRIPTION

CBD patch is a topical product which helps relieve muscle/joint pain; and produces a conductive warming effect.

CBD is used for the relief of muscle/joint pain [such as back pain, sprains, sports injuries].

Application areas:

For relief of pain and swelling [such as arthritis, back pain, sprains, sports injuries].

ACTIVE INGREDIENTS

CBD extract obtained from hemp plant [*Cannabis sativa*] has anti-inflammatory and antioxidant properties. Hemp-derived CBD isolate is 99%+ crystalline cannabidiol.

Boswellia carterii EO contains triterpenes compounds such as boswellic acid with anti-inflammatory activity.

Eucalyptus globulus EO the main component is eucalyptol or 1,8 -cineol with antiseptic, anti-inflammatory and antioxidant properties.

Pinus mugo EO presents rubefacient effect in topical applications.

Vanillyl butyl ether (VBE) is an oil-soluble thermogenic agent. Once contact with skin, it exerts gentle and long-lasting thermogenic effect, including stimulating subcutaneous layers of skin, and enhancing skin temperature. The vanillyl group induces a warming effect.

INSTRUCTIONS FOR USE

CBD Pain Patch should only be used on the skin:

- Clean and dry the area for application.
- Cut the sachet and take out the patch.
- Remove the protective film from the patch and apply it to the affected area. The patch can be used once a day.

The product is for temporary use.

If there is no improvement 2-3 days after starting the treatment or if the symptoms have worsened considerably, please consult a doctor.
