

ORAL FILM COLLAGEN

For improvement of skin elasticity and moisturization

PRODUCT DESCRIPTION

ORAL FILM COLLAGEN for buccal delivery is helpful to improve skin elasticity by applying it on buccal mucous. Its innovative formulation, muco-adhesive double layer film, maximizes buccal absorption of collagen and efficacy. Muco-transport for skin improvement. It also contributes to the general improvement of your health care with skin care. Useful and practical.

Collagen, one component of skin, is an effective nutrient for skin health and it decreases with the age. Decreased collagen reduces skin elasticity and increases wrinkles.

Clinically proven.

- Results after taking it 4 weeks.
 - Skin Moisture increased by about 33%.
 - Skin Elasticity increased by about 17%.
